

# Maximize engagement throughout your entire virtual or in-person event with one-time plans

## Maximize audience engagement

Deliver key points with game-based audience participation features such as word cloud, open ended questions, and polls.

## Incentivize attendance throughout

Boost excitement with competitive tournaments - combine scores from multiple kahoot sessions, and present the winners on a final podium.

## Professional onboarding, support, and pre-made content available

Get professional advice and support for your event, no matter the size or duration. Choose from pre-made, ready-to-host kahoots for your next virtual happy hour, trivia, or team building event.

## Works easily with existing tools

No technical setup, app or integration needed, simply use Kahoot! with your chosen event or video conference platform via screen sharing.

## Top tips for hosting an awesome event with Kahoot!

- ▶ Make your kahoots **5-15 questions** long for optimal engagement
- ▶ Use our network [self-test page](#) to verify if your connection is sufficient for the best hosting experience
- ▶ Make sure the host's device is always connected to the internet **via cable** and not WiFi
- ▶ For a smoother experience, use the **space bar** on the host's device to run through questions
- ▶ Have a **script** of your questions on hand so you can prepare your audience
- ▶ If you have over **200 participants** at your event, close any other apps on your hosting device and restart it before you start
- ▶ Combine scores from multiple rounds into a **Kahoot! tournament**, and make sure you have a prize - e.g. a gift card - for the winner!
- ▶ After the event, get **feedback** by assigning a self-paced kahoot to all participants
